Families of Functions Rules Activity Continued

From the "Rules" Worksheet record each problem in the table below.

| Create the Equation | Sketch the Graph | Identify special characteristics about the graph |
|---------------------|------------------|--|
| 1. | | |
| 2. | | |
| 3. | | |

After you've recorded all of the equations in the table, arrange the graphs into "families". Look for common characteristics and special features to help you make your decisions and make up a name for each family.

The reason they belong to this family is... Family Name The graphs that belong to this family are... 1. 2. 3. 4. 5. 6. 7.
